Subject and Author Index

PCI JOURNAL, Volume 24, 1979

The following is an index of all reports, papers and discussions which have appeared in the PCI JOURNAL during the past year. Reports and papers under each subject category are arranged chronologically. Depending on their scope, articles may be listed more than once.

For the reader's convenience an author's index is also included. The names of the authors are listed in alphabetical order, with the title, volume number, date of publication, and page numbers given for each paper.

Most recent back issues of the PCI JOURNAL are still available. In addition, many of the important reports and papers are available as reprints. In cases where individual reprints are unavailable, copies of articles are available at cost of reproduction.
